- The project concept is based on providing food assistance (meat) during the Eid al-Adha to poor and marginalized groups in Africa, with the aim of enhancing food security for the target people, meeting their basic food needs, and helping Muslims who wish to perform their Islamic ritual of slaughtering Qurbani on the Holy Eid of Al-Adha.

## Our goal from this project:

Distributing meat to those in need and bringing joy and pleasure to their hearts on the Eid al-Adha days in Africa.

Helping people who are unable to sacrifice in Eid.

Taking the most generous human being, Prophet Mohammed PBUH, as a role model and follow his will to feed food, spread peace and do good deeds.

# The process of implementation

## The legitimate and Health Perspectives of the Project:

Since the elements of the legitimate and health perspectives are quite significant, our Islamic scholars and veterinarians always monitor the process of acquiring and slaughtering Qurbani to make sure that :

- Qurbani is without fault (not underweight, sick, one-eyed nor lame)
- Qurbani is old enough (in accordance with Sharia'a law)
- Slaughtering in the right place and on the right time
- The healthy breeding of Qurbani.
- Medical check-ups for Qurbani right before slaughtering.
- Skinning Qurbani in a clean and sterilized environment.
- Cutting Qurbani in a clean and sterilized environment by using modern and fast machines.
